Safety Alert

Subject: See Something. Do Something. Say Something.

Employees that see, do, and say something become critical components of a successful injury prevention program.

See Something.

- Be aware. It is critical to remain alert to your surroundings.
- Do not become accustomed to unsafe conditions or unsafe acts taking place in your working environment.
- Look for possible exposures in all work and customer areas.

Do Something. Say Something.

The second element (action and/or reporting) is part of taking responsibility.

- First, **Do Something.** – correct the hazard if you are able to do so.
- Second, **Say Something.** - if you either cannot correct the hazard immediately or not trained to make the correction.
